24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size and cost)

Knight Architects completed a planning charrette that set the basic parameters for the future 4UA barracks complex in November of 2003 (see aerial perspective sketch at lower left). The 4th UA complex will be an offspring of a Stryker Brigade Combat Team currently located elsewhere. Knight Architects then completed the 100% design for the Barracks, the Brigade HQ and completed SID and CID for all five building types. The project will be completed in three phases and includes three 258 PN barracks; a dining facility, the 4th UA HQ building, three battalion based COF buildings and three BN HQ buildings. The design of the complex relates closely to Mr. Knight's concept design for the 1st Brigade Complex Master Plan (see bottom two images) which served as the basis for project design on that \$115M complex.

Size: 486,750 SF

Cost: \$ 145,000,000

Project Relevance

Knight Architects' work under this project relates to the following specialized experience and technical competence factors:

- Energy conservation, use of recovered materials;
- Professional qualifications of architectural staff;
- Ability to perform on-site professional assistance on an on-call basis.
